RS100 Remote Solar Power Unit

Solar Makes Sense

Using a solar lighting system is often **cheaper than trenching** cables to remote sites or through parking lots, under roads and sidewalks.

No monthly bills for electric usage, meter fees, or taxes.

Federal and local incentives may be available to offset the cost of the system. View our website for current incentives.

Renewable energy. Use the sun's unlimited power as a clean source of renewable energy.

Green Image. Let people know your company or organization is doing its part in reducing its reliance on unclean energy.

Purchase with Confidence

Established in 2002 with offices and warehouse located in Fort Myers, Florida where we store, assemble, ship, and support our products.

We stand behind our systems with a 2 year limited warranty on the on the power system and solar panel.

Our superior customer service and support is proven with our A+ rating with the Better Business Bureau.

Technical support is available for life! We'll be here to assist you with support and troubleshooting if the need arises.
