

PL20 SOLAR POLE TOP LIGHT (WITHOUT POLE)

NOTE: Pole not included

Utilizes super-efficient high-output SMD LED technology.

Complete 3D lighting renderings available for your application.

This cast aluminum, solar powered lamp post light is the perfect addition or replacement light fixture for neighborhoods, school campuses, parks or other similar outdoor applications. Designed to easily mount to the top of an existing 3" diameter round pole or post. It can attach to other pole diameters using a tenon adaptor (not included). Three, selectable lighting modes are available, all allowing for up to dusk to dawn illumination. The pair of built-in motion sensors can also be used with some modes. This fixture has the solar panel located discretely in the top of the unit. It houses a pre-installed lithium battery within. The LEDs are positioned inside the clear, polycarbonate lampshade allowing for 360 degree illumination. All aluminum and polycarbonate construction. Powder coated black finish. LED power is 15W with a color temperature of daylight white (5,500k).
