

PL40 SOLAR LED AREA LIGHT (WITHOUT POLE)

Utilizes super-efficient high-output SMD LED technology.

Complete 3D lighting renderings available for your application.

This high quality, solar powered, pole top light fixture is designed to attach to the top of a new or existing round pole. It is fitted with a powerful 18W LED lamp which provides 2,800 lumens. The fixture has an integral 38W solar panel and a high capacity (154WH) lithium battery is housed within. The LED color temperature is selectable between 3,000k or 6,000k. This fixture is supplied with a remote control that allows the end-user or installer to select the desired lighting mode. Several modes are available including dimming and motion detector options. This black colored light fixture should quickly and easily mount to the top of an existing 3 inch diameter light pole.

Note: Pole not included

PL40

SOLAR 2800 LUMEN LED AREA LIGHT (WITHOUT POLE)

Performance

- Typically dusk to dawn illumination.
- Default lighting mode is 100% output for 3 hours, 40% for 4 hours, and 20% until sunrise. Light switches to 40% when motion is detected.
- Other light modes include: On at 30% power, switches to 100% power when motion is detected. Timed modes 4, 6 or 12 hours.
- Dimming options available.
- Light automatically illuminates at sunset.
- Discrete on/off switch for manual over-ride.
- Aluminum, glass, and polycarbonate construction.
- Black colored finish.
- I.P. 65 rating.

LUMINAIRE

- Supplied with 18W LED power.
- Light output is 2,800 lumens at full power.
- Fitted with microwave motion sensor for 360-degree detection.
- 3000k or 6000k color temperature (selected via remote control).
- Entire product stands approximately 17.5" (45cm) high.
- Top section of light fixture is approximately 23.75" (60cm) wide.

SOLAR PANEL

- Fitted with a 18V 38 Watt Monocrystalline solar panel.
- The solar panel is fixed discretely into the top of the lampshade.

BATTERY

- Supplied with 12.8V 154 Watt-Hour lithium lifePO4 battery.
- Life expectancy of the battery is approx. 3-5 years.

CHARGE CONTROL

- Internal battery over-charge and dis-charge protection
- Automatic light activation at sunset
- Light modes can be selected with included remote control.

INSTALLATION

- Mounts over the top of an existing 3" (76mm) diameter pole.
- Can fit other pole diameters using a tenon adaptor (not included).
- Suitable for installation on poles up to approximately 15' (4.5M) tall.
