

PO40 SOLAR LED AREA LIGHT (WITH 10' OR 15' POLE)

Utilizes super-efficient high-output SMD LED technology.

Complete 3D lighting renderings available for your application.

This high quality, solar powered, area light is supplied complete with a choice of pole. It features a powerful 18W LED lamp which provides 2,800 lumens. The fixture has an integral 38W solar panel and a high capacity (154WH) lithium battery housed within. The installer or end-user can select the LED color temperature (either 3,000k or 6,000k). The light fixture is supplied with a remote control which allows the timed operating mode to be selected, as required. Dimming and motion sensor options are also selectable. Supplied complete with a choice of 10' (3M) or 15' (4.5M) pole. Color of light fixture and pole is black.
