

## SF08

### Solar 'Sentinel' Commercial Grade LED Security Light With Motion Sensor

#### TECHNICAL SPECIFICATIONS

##### GENERAL

- Heavy duty, metal casing, weatherproof, motion detection security light.
- Weather proof push button on off switch.
- 64 super bright Cree® LED's providing approximately 60-75 watts of incandescent light.
- Each LED provides 7 Lumens at source. Total about 450 Lumens.
- Integral high capacity 7.4 volt 2A-hr rechargeable Lithium battery (replaceable when necessary).
- Battery included and is pre-installed inside fixture.
- Motion detection, max range 17 feet (5m), 360 degree detection area.
- High quality integrated polycrystalline 5 watt solar panel.
- Fixture illuminates when motion is detected and stays illuminated 60 seconds thereafter.
- Fixtures painted with anticorrosion coating.
- Wall mounting bracket and pole mounting bracket included.
- Ideal height of installation is about 10 feet.
- 10 foot painted steel pole can be supplied as an additional part.
- Solar panel best fixed facing South (otherwise East or West).
- Provides illumination of an area approx. 30' x 30' (900' square) and beyond to the extent of what a 60-75 watts of incandescent light can provide.
- This motion sensor security light is not designed to be used for continuous illumination. Its purpose is to illuminate for short periods upon activation of the motion sensor.
- The light fixture is approximately 12.5" x 9.5" x 2" ( L x W x D).
