

FL22

FL22 Solar LED Module Sign Light System (1 Set)

This solar sign light system is supplied with a set of 50 LED modules with 3 LEDs in each module. The modules are water-proof and can be used for internal or external installation. The light is capable of illuminating dusk to dawn, subject to installation location as well as solar panel and battery capacity selected. The system is supplied with the luminaire, solar panel, rechargeable battery, battery enclosure, MPPT programmable charge controller, and necessary cables and hardware. The light activation is fully programmable; the lamps will automatically illuminate at sunset and stay illuminated until the programmed amount of time or until dawn (subject to settings).

LUMINAIRE

- 50 LED modules, 3 LEDs in each module
- 15 lumens per module
- White color temperature (6000K), warm white (3100K) and RGB available
- IP65 rated
- Modules supplied with 3M® adhesive backing
- 18' (5.5m) of pre-plugged cable to the first module
- 3" cable between each module

SOLAR PANEL

- 70W, 90W, 100W, 140 watt solar panel option
- Aluminum framed solar panel
- 18' (5m) of pre-wired and pre-plugged cable
- Supplied with surface mounting bracket

BATTERY

- Two 12V 32Ah capacity
- AGM Deep Cycle VRLA Battery for solar applications
- Includes metal lockable battery enclosure to house battery and charge control module

CHARGE CONTROL

- MPPT charge controller technology
- Fully programmable light control
- Offers dusk to dawn, or timed illumination
- Provides increased efficiency and extended battery life

ACCESSORIES

- SPo4/SPo8 - Solar Panel Pole Mount
- CC05 - Bluetooth Connect (for MPPT programming)
