

## IL09 Solar LED Light Bulb

### TECHNICAL SPECIFICATIONS

#### GENERAL

- Complete solar light bulb kit.
- On/off switch on solar panel unit.
- Can only be used manually at the on/off switch on the light bulb holder.
- Switch it on anytime for lighting. Switch it off when you do not need it.
- No photocell control so daylight use is possible.
- Approx. 16' (5 metres) of cord is connected to the bulb holder and is fitted with a male jack plug at the end.
- The solar panel unit is fitted with a female jack.
- Easy to install with simply plug & play connection.
- 25 super bright LED's providing approximately 20 watts of incandescent light.
- Each LED within the bulb provides approx. 6 Lumens at source. Total approx. 150 Lumens.
- 3 rechargeable batteries are included (replaceable) and are housed within the solar panel unit.
- High quality 2 watt solar panel included.
- The solar panel can be installed up to 16' (5 metres) away.
- All plastic ABS construction, no parts to rust.
- Black colored finish.
- IP55 weather rating.
- Should provide illumination of an area up to approx. 10' x 10' and maybe beyond to the extent of 150 Lumens (per light bulb).
- Can be wall or surface mounted. A 2" (5cm) wall bracket is included.
- Can be staked into the ground. A 6" (15cm) ground stake is included.
- Operates up to 6 hours or more.
- The LED light bulb is approx. 2.5" (6cm) diameter.
- The bulb holder is approx. 1.5" (4cm) diameter and 3" (8cm) long.
- The solar panel dimensions are approx. 6" x 5" x 1" (15cm x 13cm x 3cm (L x W D)).
